

About the World Scout Jamboree

The World Scout Jamboree (WSJ) happens every four years, each time hosted by a different country, with the last two Jamborees held in USA in 2019 and Korea in 2023. We can promise you, it really will be like no other trip or adventure you've been on or experienced, but don't just take our word for it...

Each county within the UK will be sending a unit which makes part of the UK Contingent. The UK Contingent is made up of 72 units from all across the country.

Our unit will be made up of 4 patrols of 36 awesome young people, supported by 4 adults from across Cambridgeshire.

We have a strong ambition to be as diverse and inclusive as Cambridgeshire is and we really want you to apply, whatever your background, abilities, financial situation, religion, race or gender. We're committed to working hard towards a diverse mix of participants and adult leaders and will provide a safe space within our units, where everyone is welcome.

The volunteer team for this Jamboree have lots of Scouting and International experience between them and are looking forward to developing the unit and supporting within their fundraising in the lead up to the event.
